

Do you have what it takes to join MEUW's team of safety professionals?

Communities across Wisconsin count on our team to keep their workers safe. You can apply your passion for safety to help us deliver high-quality training programs and much-needed services. You'll experience the personal satisfaction of making a difference and contributing your talents and creative ideas to improve safety outcomes.

At **Municipal Electric Utilities of Wisconsin (MEUW)**, our well-established and growing Regional Safety Management Program needs more resources. We're looking for driven, self-motivated and engaging candidates who want to be part of our talented team of safety professionals. In return, we offer a dynamic work environment, flexible scheduling, competitive pay and benefits, and a supportive culture that encourages professional growth and personal development.

We're recruiting for multiple positions and looking for candidates who have flexibility and are willing to travel and deliver services to our client locations across the state. Priority will be given to qualified applicants residing in the Fox Valley region and northwest Wisconsin. *The position may be filled at a higher level, depending on the successful candidate's qualifications.*

Qualifications

- Minimum of 1 to 3 years of professional work experience, including direct responsibility for workplace safety
- Expansive knowledge of OSHA 1910 and 1926 standards, along with additional requirements set forth by the Wisconsin Department of Safety and Professional Services
- Experience developing and implementing safety programs
- Valid driver's license
- Proficiency in Microsoft Office, including Sharepoint
- Exceptional communications skills and the ability to build relationships and work as part of a team
- B.S. degree in Occupational Health and Safety or other relevant field is preferred.

We know from past experience that successful workers in this position have had experience:

- Working in local/county government
- Working in construction or other field service in an outdoor setting
- Being a trainer, including comfort with public speaking and effective presentation skills
- Fire/EMS/Law Enforcement/Military

Duties and Responsibilities

- As part of our team, you will serve the occupational safety and health program needs for members of our Regional Safety Management Program comprised of municipal utilities, towns, cities, and villages.
- You'll travel daily to one of your assigned communities, to develop relationships and provide on-site training, audits, inspections, and hazard assessments to strengthen safety performance among the employees who work there.
- On the job, you'll work with established safety committees to proactively identify training and program needs, conduct root cause analysis and incident investigations, and complete required compliance documentation.
- You'll also be called on to implement and/or manage our clients' Return to Work programs and assist, as needed, as the liaison for insurance and state safety inspections.

About Us

MEUW is an established and stable 92-year-old organization that values employees and their unique talents and experiences. We offer a supportive and flexible work environment with an attractive total compensation package that includes:

- Competitive salary, including sign-on bonus (base pay commensurate with experience)
- Health and dental insurance
- Flexible Spending Account
- 410(k), including employer contributions
- Expense reimbursement
- Continuing education and professional development allowance
- Paid ADD/Life Insurance Policy
- Paid time off, including vacation, personal time, holidays and sick leave

The information provided above describes the general nature and level of work performed by employees. It is not designed to contain or be interpreted as a comprehensive inventory of all duties, responsibilities and qualifications required of employees assigned to this role.
